Cero-Gel

Cero-Gel is a high quality polishing agent based on cerium oxide. It excels due to the amount of dirt and grime it removes and the high brilliance of polished surfaces. Cero-Gel was especially developed for the window and glass industry. Hairline scratches, the first signs of glass corrosion or stains caused by cement, concrete or silicone, can be easily removed. Cero-Gel can be applied using the Bohle felt polishing bob BO 5007901 together with a cordless drilling machine or, for larger surfaces, the Flex glass polisher BO 5300809 together with felt disc BO 5300811. For final polishing, we recommend Radora Brillant BO 5008003 or simply clean with water. Benefits: Handy aerosol can. Simple application and immediately ready to use. Polishing gel. No dripping, even on vertical surfaces. Can be applied in any position, 360°. Target groups and applications: Glaziers from trade and industry. Window manufacturers. Facade cleaners. Solar glass cleaners. Surface polish for glass, stone, ceramic and natural stone. Hairline scratch polish

XtraClean Cleaning Paste

Thanks to millions of microparticles, XtraClean is capable of removing deposits, building dirt or rust from glass, stainless steel, ceramic, tile joints and other hard surfaces. It even masters concrete splatters and oil deposits effectively or cleans dirty machines which look like new again in no time. The effect of the cleaning particles is further enhanced by surfactants which improve the solubility of greasy stains as well as by essential oils set free during cleaning. The following applies: The higher the temperature during cleaning, the more essential oils are set free and the more economical is the cleaning paste. Contents 100 g

BriteGuard® Smart Surface Protection

BriteGuard® is a registered brand of Bohle AG. For over 90 years we have been developing, producing and selling products for glass processing and finishing. No matter what you plan to do with glass, our full product range offers you the right products – including surface protection. With BriteGuard® Bohle has developed a surface protection system that is setting new standards. At the heart of the system are the two coating products BriteGuard® Surface SEALER for smooth surfaces and BriteGuard® Surface SEALER X for rough surfaces. The German Technical Inspection Agency, TÜV, has tested BriteGuard® Surface SEALER and confirmed that smooth glass surfaces become easy to clean and dirt-repellent when protected with BriteGuard® – typically for at least 10 years.
