

Picnic Tables

The Bailey Streetscene range of Picnic Tables includes a number of different materials including steel, stainless steel, timber and recycled plastic. Outdoor eating is becoming a more popular social event plus it's a good way to get the family together and out enjoying their local parks or countryside.

For when you need that extra touch of design or modernisation our Stainless Steel range of picnic tables offer sleek modern designs incorporating a Stainless steel frame work with treated Iroko hardwood table top and seats, giving a designer looking finished table.

Product Code: BS035.2

In the steel range of Picnic tables we have the Ellipson Picnic table. The steel frame is constructed from 89 & 60mm steel tubing, which is hot dip galvanised and powder coated with a brush stainless steel look. The seat and table top are manufactured in 25mm thick HPL (high pressure laminate). This table is renowned for its sturdiness and easy maintenance.

Product Code: BSL0058

Most suitable for primary school age children is the Jigsaw Picnic table, the perfect partner to the Jigsaw Bench Range. This fun design is suited to any school playground. Recycled plastic offers the following features it is Maintenance free, Hygienic, Easy to clean and Vandal Resistant.

Product Code: BSS10002

Timber is the most popular choice for picnic tables as it is economical, easily sourced from renewable sources and it integrates perfectly into surrounding landscapes.

Within the timber range we have the classic picnic table seating up to 10 people. We also have in the timber range the timber/concrete picnic tables which offer a stylish yet economical alternative to a full timber table.
