PREPARATION

All surfaces to be painted should be sound, clean, dry and free from grease. Avoid the inhalation of dust. Wear a suitable face mask if dry sanding. Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. APPLICATION

Ensure good ventilation during application and drying. Do not breathe spray. Wear Respiratory Protection. Stir well before use. Suitable for application by brush, spray or mohair roller. Apply a single coat of uniform thickness, taking care to avoid runs or overlapping. Do not apply when air or surface temperature is below 10°C, or in humid conditions.

CLEANING

Remove as much product as possible from application equipment before cleaning. Replace lid firmly. Clean equipment immediately after use in warm soapy water and rinse thoroughly. Some local authorities have special facilities for the disposal of waste coatings. Do not empty product into drains or watercourses.
