

REVAL

SUSTAINABLE WELL-BEING

Company Overview

Welcome

Innovative equipment designed to revolutionise the quality of care.

As continuing care specialists, **Reval** have been producing Hydro Rehab Pools, Assisted Bathing, Assisted Showering, Burns Treatment and Transfer equipment solutions for acute and non acute healthcare facilities worldwide for 44 years.

Our range balances efficiency and ergonomics with comfort and safety, and uses advanced technologies to produce innovative solutions designed wholly around the people that use it.

Reval truly stands for *“Sustainable well-being for all”*.

Our Manufacturing Know How

- ✓ Specialist Design
- ✓ Mastered Technique
- ✓ Superior Finish

Our products are designed and carefully crafted by our highly skilled in-house manufacturing teams.

Using a range of mastered techniques that will guarantee a superior quality finish and will be sure to stand the test of time.

Our expertise spans fibreglass moulding, projection and infusion applications and marine grade gel coat finishes to name just a few.

It's just what we do!

Specialist Teams

Our Product Specialists maintain a close working relationship with our clients. They are our brand ambassadors, listening to our customers and advising them to ensure their needs are met. Our Engineers, Designers and Technicians craft our products with their key objectives being safety, hygiene, rehabilitation and well-being. Our expert Customer Service advisors are on hand to provide guidance on all aspects of our products.

Consistent Quality

Essential to care providers in the commercial environment, we ensure our products meet stringent quality standards and legal requirements such as BS6920 water bylaws, CE certification, WRAS Category 5 compliance and TMV3 (D08) certification. We work to strict codes of conduct, and are also ISO9001:2015 quality certified.

Safety as Standard

We go further by finding new ways to overcome the challenges faced by individuals in the care industry by using state of the art safety and hygiene technologies. Anti-scald TMV3 (D08) approved components are among the technologies we use to limit risk and improve comfort.

Market Leading Innovation

Our products are at the cutting edge of health and hygiene technology, they are safe and ergonomically comfortable. Designed to bring speed, ease and efficiency, they give carers maximum accessibility with minimal effort to give patients all the care they need.

Our Vision

To transform the lives of those people living with health and mobility challenges by promoting hygiene and rehabilitative solutions that focus on the safe and dignified needs of each individual, and the overall impact on their sustainable well-being. By providing innovative product solutions with exceptional levels of service, we are to be recognised globally as industry experts and the first-choice supplier for acute and long term care

Our mission is to offer:

- Improved quality of life to both those with mobility restrictions and their facilitators of care by finding new ways to overcome the challenges faced by individuals in the care industry through the use of state-of-the-art safety and hygiene technologies that are supported with superior levels of service.
- Cutting edge product designs that pioneer the adoption of industry leading health and hygiene technology. All designed to create valuable time and cost efficiencies, deliver greater patient safety, give carers maximum accessibility with minimal effort, enhance product quality and adhere to stricter regulatory requirements.
- Close working relationships with our clients where our product specialists dedicate their time to listen to individual customer needs so that we can be sure the best possible solution is achieved. Our range is to consider the different support and treatment needed and is to be carefully designed.

The *Reval* Way

Innovate and Collaborate

We harness the collective power of diverse teams to produce creative and innovate solutions for even the most complex challenges

Empathise and Serve

We develop deep empathy for our internal and external customers and identify opportunities by unveiling real human needs

Inspire and Coach

We draw inspiration from the people that surround us and promote creativity in everything we do. Here to inspire others, educate and part wisdom at any given opportunity.

No Boundaries for Quality

We satisfy and delight by providing outstanding products and unsurpassed service that together deliver premium value to all

Commitment to our people

We practice win- win partnerships with our customers, suppliers and employees.

Passion

We are committed in heart and mind to everything we do. We work hard and with purpose to be the very best we can be.

The image shows a white bathtub with a patient transfer system installed. The system consists of a vertical stainless steel pole with various components. A large, bright red, contoured seat is mounted on the pole, positioned over the bathtub. Below the seat, there are two red, oval-shaped footrests. The pole also has several horizontal bars and handles. The background is a plain, light-colored wall.

REVAL

Burns Treatment

Specialist Expertise

Specialism in Burns Treatment

The complexities involved in treating a burns patient requires safe specialist knowledge and expertise.

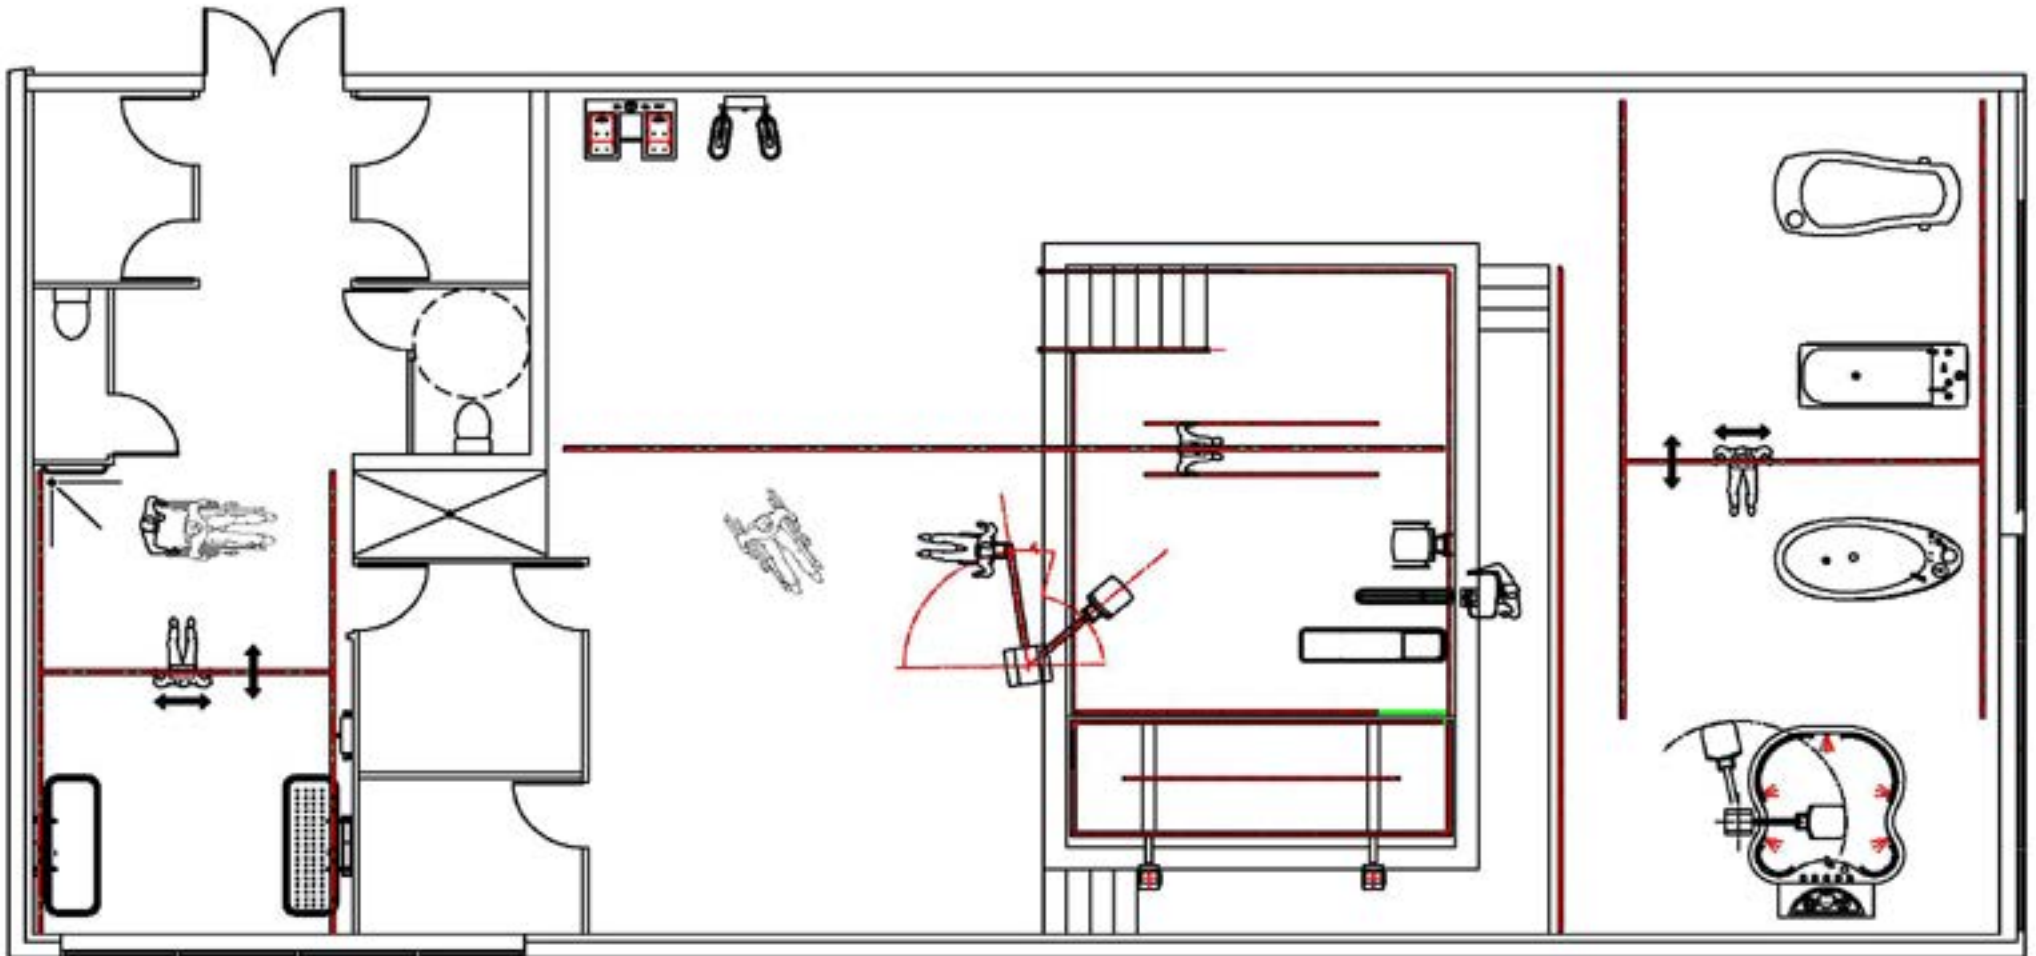

As well as the prevention of infection, water is known to reduce pain and make ligaments and scar tissue more flexible.

Creating space to thrive

Creating a space that enhances a persons physical and mental well-being is our speciality. We understand that a well designed and thought out space plays a crucial part in enhancing a persons quality of life and eliminating barriers of independence.

Turnkey projects managed and fully supported by Reval, from concept through to Handover and aftercare

Making A Difference

Read our customer stories

Installing confidence across the care sector

Jonathan Garton, Yorkcare Homes operations director says: "We are a quality brand and as such we require our fixtures and fittings to reflect that. Reval is a premium brand manufacturing premium products. We have piece of mind the Caprice system works for our staff as well as assisting our residents to bathe in a comfortable and dignified environment."

[Read the full story](#)

We suggested the Ruby and they loved it

"A lady in the later stages of dementia wouldn't let anyone do any personal care for her, not even her own daughter. She hadn't had a shower in ages. When they managed to convince her to try the Ruby. She was so content and relaxed with Ruby that her daughter commented she had never seen her so happy having a shower."

[Read the full story](#)

Reval help meet diverse community needs

“With our assisted bathing systems from Reval we now offer non-clinical bathing environments that fully meet individual needs. We’re very grateful for the support and guidance received from Reval and we know our service users are too.”

[Read the full story](#)

Reval Safe Patient Handling receives a thumbs up

“You cannot underestimate how complicated it can be to specify a hoist system that allows for exceptional freedom of movement.

You know your in safe hands with Reval.”

[Read the full story](#)

When you compare like for like with other products, you get more for your money with Reval

“We had a lady on respite, she didn’t want to be here at the beginning of her stay with us but she very quickly embraced her new surroundings, so much so that she had a bath every single day.

– Its the bath thats made it”
