# HELLO

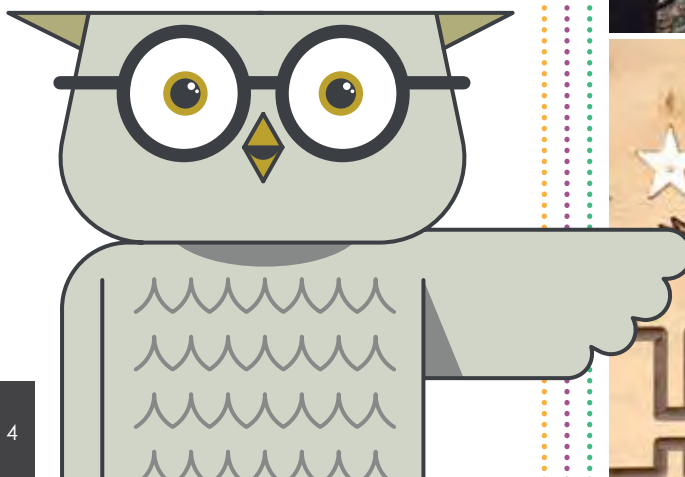

Here at Hand Made Places we've seen huge growth since our birth in 2000. Starting life as a one man outfit from a garage we've come a long way, always maintaining our ethos for friendly, personal service and high quality products with a handmade finish.

Our range has grown too, many of our products beginning life as bespoke pieces or 'one offs'. Sometimes an idea may come from a teachers' sketch; their vision of a themed playground, or a drawing that a child has produced as part of a dream playground project. Wherever the vision may come from, our talented designers are constantly seeking out inspiration for ideas to captivate children's imaginations and nurture their social and physical development.

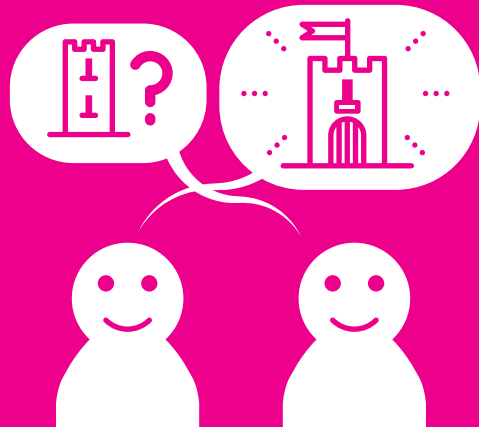

Having firmly established ourselves as a trusted supplier to schools, nurseries and children's centres all over the UK we also work with many town and parish councils as well as national attractions.

Stanton Bridge Primary School,  
Coventry

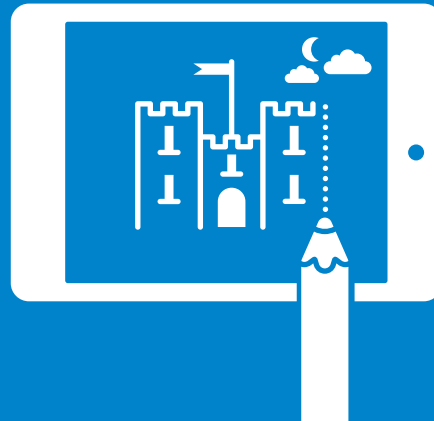

# OUR PROCESS

## CONSULT

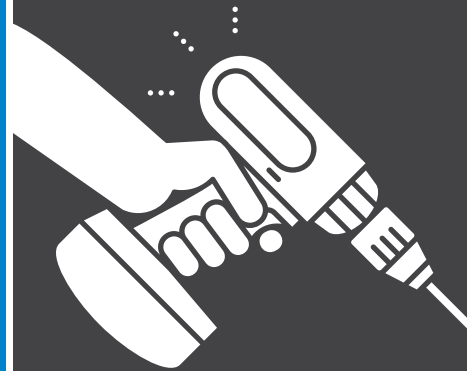

When planning any play area it's best to arrange a site visit. One of our consultants will meet you to discuss your vision and measure the available space. That way you'll get the most accurate proposal and quote to move forwards with.

## DESIGN

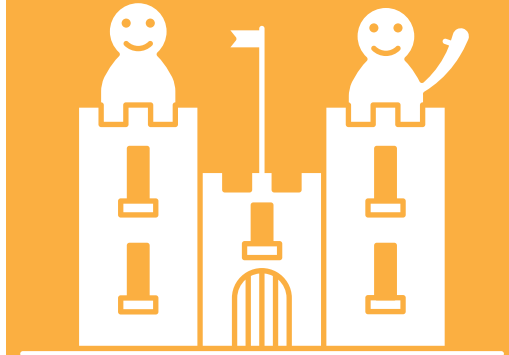

Our creative design department will visualise your ideas, producing a concept presentation for your approval. This could be a full play scheme or a bespoke piece drafted just for you. Once you're happy with the design and quote just place your order.

## MAKE

Our UK based workshop is where the real magic happens, with every item crafted in-house. This means that our carpenters, drafts-men and consultants can tailor your project specifically to your requirements.

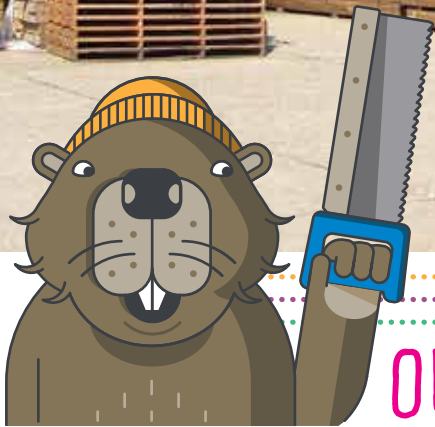

## ENJOY

This bit is easy! Just let the children explore their brand new playground, safe in the knowledge that it's as safe and sturdy as possible. Every play item that we produce is manufactured in accordance with BS EN 1176 & BS EN 1177 standards.

Our team of experienced consultants are on hand to offer inspiration and free advice while you're planning your outdoor development. To take advantage of our FREE site visit and design service please contact one of our team to see what we can create for you.

Call us now on: 01420 474 111

## OUR WORKSHOP

Situated in Bordon, Hampshire on the outskirts of the South Downs National Park is the Hand Made Places workshop. Our home is now a 30,000 sq ft building containing our traditional yet modern facilities and offices. Our talented craftsmen still use traditional construction techniques with all of our products being hand finished to ensure that everything we produce is of the highest quality. Once made, all the parts are sent off for preservative treatment, returned and reassembled to make sure everything still fits together as it should. That way we know that your order reaches you in perfect condition.

## OUR METHOD

### Case Study: Storyteller's Chair

Frequently emulated but never quite the same, our Storyteller's Chair is a classic. Full of magical character it's also easily personalised to have your own message engraved on the back rest. Here's a quick guide explaining how we build it using traditional joinery methods ensuring that it lasts for years to come.

For more info on this product go to page 93

The legs and back rest include our classic engravings.

We always use mortise and tenon joints on our Storyteller's Chair, it's stronger that way.

Glued, clamped and screw fixed the legs are secured to the seat support.

The timber we use is always more than strong enough for the job, the chunky seat support is made to last.

Our chair is set apart by its beautifully angled arm rests giving it a timeless look.

Elegantly machined and built, our chairs are finished by hand every time.

# INSTALLATION OPTIONS

WE CAN OFFER TWO TYPES OF INSTALLATION METHOD...

Root fixed timber posts.

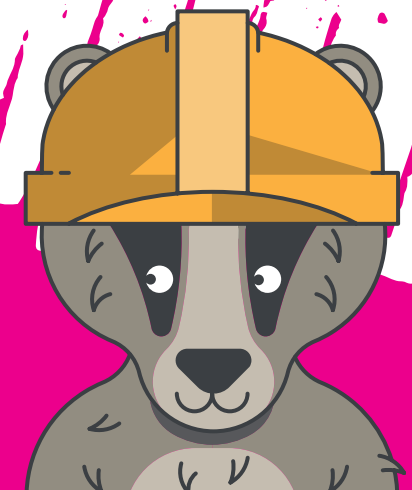

Steel base-plated timber posts.

# OUR INSTALLATION

At Hand Made Places we use installation teams nationwide with hundreds of years of cumulative experience of installing play equipment in schools and other settings. This experience and knowledge is very important to us, because we want all our customers to be provided with a service that fully understands the environments they are working in and show empathy to the day to day running of those sites. That is why all of our clients are part of the Installation process to ensure that they are completely satisfied with the proposed programme of works. All of our team members have successfully been approved by the DBS application.

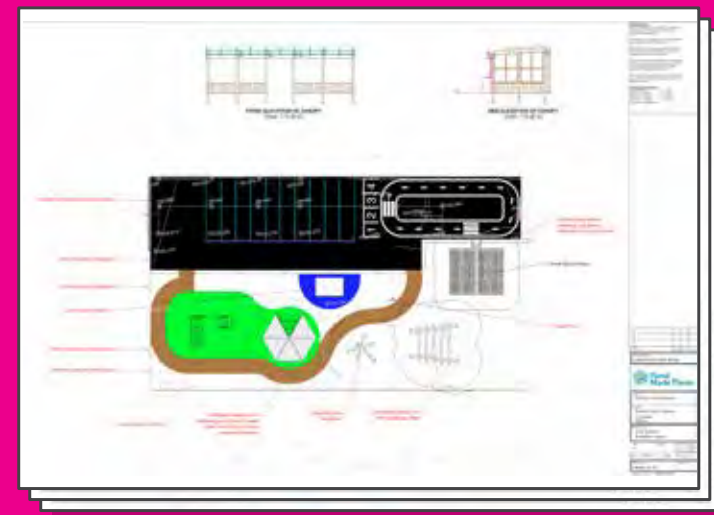

# DESIGN SERVICE

We offer a FREE site visit and design service, so it's easy to get the ball rolling on any type of project. From small Pre-Schools to large new build sites, we can design, manufacture and install a play area to suit.

# BESPOKE DESIGN

Many of our products and designs are developed directly with our customers' ideas in mind. Whether as part of a class project with the input of pupils or simply a wish list, we can accommodate your specific plans.

The most imaginative schemes we've worked on over the years have been a joint effort and there's always great pride and excitement when we create something bespoke. Here are some of the products and spaces we've designed to give you an idea of what we can do for you.

# CASE STUDY

## The Early Years Foundation Stage

Our Lady of Perpetual Succour Catholic School, Nottingham

The mission statement of Our Lady of Perpetual Catholic School is 'Learn to Love, Love to Learn'. The aim was to create an outdoor area which encouraged learning through play.

With an emphasis on daily outdoor activities, the Nursery required a bespoke Pergola with vinyl rollers, creating a sheltered space to conduct classes. This includes Round Tables and Button Stools as well as a Chalkboard for children to share their creativity and experiences.

The active play zone features our Balksbury, a low level play unit that's ideal for younger children. Surrounding this is "village" themed surfacing with a Roadway and Bound Rubber Mulch track. Combined with Tracing Boards and a Holey Pole Teepee, the children will love to play, as well as learn in their brand new playground.

# CASE STUDY

## Key Stage 1

St Peter's Catholic  
Primary School,  
Hinckley

This playground is a classic Hand Made Places design. By combining a mixture of Imaginative Play items, distinctive Play Sculptures, Musical items and a Trim Trail, the children of St Peter's Primary School now have an engaging space to aid all aspects of their development.

The Willingdon Gazebo offers a place for some playtime chat in the "garden" zone. Leading to it is an entrance archway which, with some red Outdoor Carpet, doubles up as a play stage.

The blue Wet Pour Rubber surrounding the low level Trim Trail creates another zone. Not just a space for physical play, it includes some Congas and a Tracing Board for those who like to be more creative.

# CASE STUDY

## Key Stage 2

Neasdon Primary School,  
Hull

The challenge at Neasdon Primary School was to develop the whole playground so that it could be a purposeful area for both play activities and outdoor learning. Physical development opportunities for children throughout the school was key and there are plenty of those. The log Climbing Frames and Traverse Wall are a big hit, as is the children's gym area.

The huge Broxap shelter we installed with our amazing seating underneath is really popular at lunchtimes with children being able to sit out and socialise whilst they eat their packed lunches. It is also a space which is used regularly for teaching a large class at a time outdoors. The use of the bound rubber mulch surfacing means that the areas can be used all year round without the ground (and children) getting all muddy.

# CASE STUDY

## All Through School

Waverley School,  
Birmingham

This brilliant new school was built as part of the BSF Birmingham scheme and we are excited to have been part of it. Their main principle is learning through diversity, welcoming pupils from 0-19yrs.

Due to the massive spectrum of the school community, there needed to be an opportunity of progression as the pupils grew older; from the children's centre right through to sixth form. Students moving through the key stages of the school had to meet something new, refreshing and challenging in their outdoor play, just as they would academically within their classroom.

From Imaginative Play items to Aerial Zip Slides, Waverley School's 6th Form and Children's Centre certainly has kept its ethos of learning through diversity. The School has since gone on to gain Specialist Humanities Status and has been graded 'Outstanding' by OFSTED!

# CASE STUDY

## Retail & Public

Deepdale Shopping Park,  
Preston

Deepdale Co Ownership Trust required a playground for all ages and abilities, so providing a range of products with a variety of play opportunities was vital.

The focal point of the space is our colourful Action Station III which is packed full of challenging play features including a fireman's pole and perforated steel tunnel.

A Play Boat allows imaginations to flow, reinforcing the ocean theme for younger children to enjoy role play games. This theme is reflected in the Wave Benches too where parents can oversee their little pirates.

A mixture of bespoke Picket and Fortress fence panels create a designated area where children can play safely away from the cars and people shopping at the retail park.

# CASE STUDY

## Bespoke

Beaulieu National Motor Museum, Beaulieu

This world renowned museum is home to many historical vehicles including both Chitty Chitty Bang Bang and the Flying Ford Anglia from the Harry Potter films. Therefore our play unit had to be something special and embody everything that the museum stands for whilst still being fun for children of all ages.

The client requested that the play unit be an exact replica of their open top tour bus. Sticking to this interesting brief we designed an entirely bespoke product, complete with two tiers, a fully functioning cab with moving steering wheel, seating for 'passengers' and even a number plate. The play bus also incorporates all of the distinctive markings and "stops" which can be found on the original bus.

## THE HQ GUIDE

OTHER GOOD TIPS FOR ENCOURAGING MINIBEASTS TO YOUR HQ ARE...

- PLACE IT UNDER A TREE OR NEAR A SHELTERED WALL
- PILE SOME ROTTEN LOGS AROUND THE BASE
- GROW WILD FLOWERS IN THE AREA
- TRY NOT TO DISTURB IT ONCE ESTABLISHED

# Sunshine Gym

## Outdoor Fitness Equipment

a division of **broxap**

Sunshine Gym has designed a range of fitness equipment reduced in size for the intended user but constructed to the same quality standards of our adult range. This has proven to be popular with all children with varied sports abilities, encouraging enjoyable non-competitive physical activity and exercise.

### The benefits of Outdoor Fitness Equipment...

- Increasing young people's confidence and well-being along with improved concentration levels in the classroom.
- Encouraging young people to interact outside their normal social group, making new friends and developing social skills.
- Sunshine gym equipment can be used for compiling statistics for cross curriculum education in subjects such as maths and science.
- Equipment can allow all teachers with a non PE Background to conduct a challenging and enjoyable physical education lesson enjoyed by all participants.
- Pupil's physical progress can be easily monitored on categories such as balance, coordination, strength and flexibility.

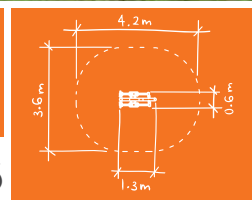

[www.sunshinegym.co.uk](http://www.sunshinegym.co.uk)

The Children's Sky Stepper provides a workout for arms and legs as well as building strength, flexibility, balance and co-ordination.

## Children's Sky Stepper

BX/SG 4009

From **£875**

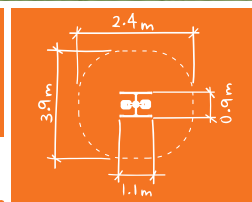

Ideal for both balance and cardiovascular exercise, this unit can be used by two children at a time.

## Children's Double Slalom Skier

BX/SG 4006

From **£735**

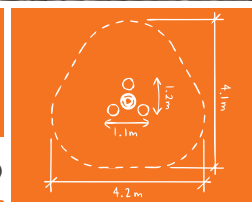

The Children's Waist Twister allows up to three children to workout at the same time. It also promotes flexibility and balance.

## Children's Waist Twister

BX/SG 4002

From **£779**

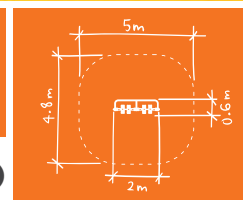

A much loved piece of equipment for children to have fun whilst exercising in a non-competitive environment. Let their imaginations run riot, thinking of the way that robots walk.

## Children's Double Health Walker

BX/SG 4005

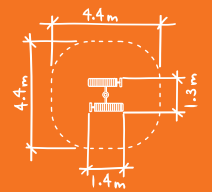

From **£950**

The Children's Double Sit Up Bench is a traditional item of outdoor gym equipment which has been in use for many years. It is designed with comfort in mind and is ideal for use by all age groups.

## Children's Double Sit Up Bench

BX/SG 3001

From **£715**

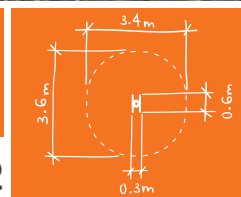

The Children's Double Strength Challenger is one of our most popular pieces of outdoor fitness equipment. It provides a fun way to build up arm and shoulder muscle groups.

## Children's Double Strength Challenger

5+ 12 M2 0.6m 1m

BX/SG 4004

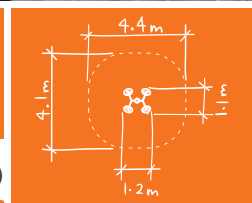

From **£452**

The Tai Chi Discs exercise the mind as well as arms and shoulders, and encourage social interaction.

## Children's Tai Chi Discs

BX/SG 4010

From **£540**

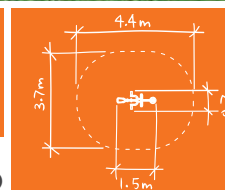

The Children's Horse Rider provides a fun all body workout. Perfect for the school playground or park to encourage children to be active.

## Children's Horse Rider

BX/SG 4007

From **£526**

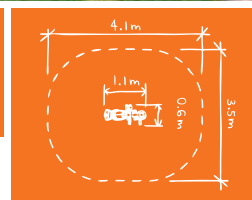

The Children's Arm & Pedal Bike is designed for use by all abilities. Ideal for use by children in KS1 & KS2. A great cardiovascular workout which also improves balance and co-ordination opportunities.

## Children's Arm & Pedal Bike

BX/SG 4011

From **£690**

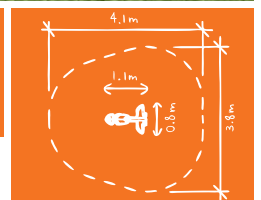

The Children's Outdoor Rower can be used for a gentle warm up or for a more intense cardio workout.

## Children's Rower

BX/SG 4008

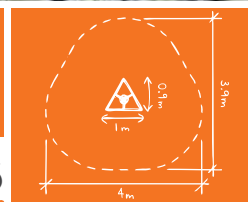

From **£825**

The Children's Leg Stretch helps to increase mobility in the hips. It can also be used for gentle squats when used as a handrail. It's great for warming up and encouraging good balance and greater flexibility.

## Children's Leg Stretch

# DESIGN YOUR OWN

We've compiled some of our most popular products for you to try your hand at being a PLAYGROUND DESIGNER! Simply follow these instructions to bring your own project to life!

You can find these pages and more on our website...

[www.handmadeplaces.co.uk//resources](http://www.handmadeplaces.co.uk//resources)

Before you start, you'll need the following items.  
Printer or photocopier for more copies, scissors, glue, plain paper, colouring pens or pencils and some REALLY COOL IDEAS!

**STEP 1:**  
Photocopy the following pages.

**STEP 2:**  
Cut out the playground equipment pictures.

**STEP 3:**  
Arrange and stick them down with glue onto a plain piece of paper.

**STEP 4:**  
Colour in around the playground equipment with your favourite theme. It could be a Jungle, outer space or even the deep sea...

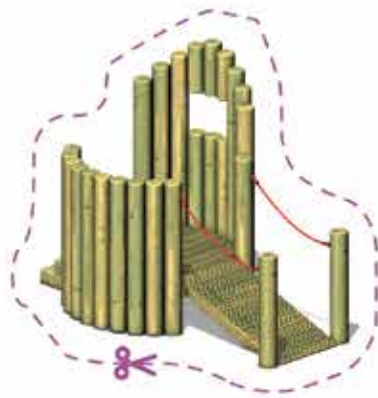

Why not share your playground design with us?

 [facebook.com/handmadeplaces](https://www.facebook.com/handmadeplaces)

 [@Handmadeplaces](https://twitter.com/Handmadeplaces)

To download all these pages and more, visit...

We love wood! Our timber comes from managed forests and is all FSC certified, the majority of it being laminated European redwood. Using laminated timber increases the strength of our products as well as making them resilient and much less likely to crack, warp or deform as single piece timbers.

\*Further terms, conditions and other qualifications apply.  
Please visit [www.handmadeplaces.co.uk](http://www.handmadeplaces.co.uk) for details.
